To our shareholders

Foster aims to become a new-age company that is loved throughout society.

During the fiscal year ended March 31, 2020, we faced extremely severe circumstances, including a continuously chaotic global economy caused by a rise in protectionism resulting from trade friction between the US and China and economic recession due to the spread of COVID-19, which started at the beginning of 2020.

The Foster Group (the “Group”) recorded year-on-year declines in net sales and operating income due to lower demand for smartphone and automotive components and impact from the spread of COVID-19.

Currently, the Group is striving to revolutionize its businesses, with a particular focus on its automotive-related businesses, and alter the philosophies governing them. At the same time, the Group is endeavoring to develop new businesses and products while it prepares to usher in a new era. In accordance with its philosophy of embracing perpetual change, the Group will continue to conduct ESG management as it steadily moves forward with its efforts to become a new-age company that is loved throughout society and the market.

We modestly request your continued support as we move forward.

June 2020
To respond to market changes, we have shifted to an organizational framework that is arranged according to function.

As trends related to technology and environmental response accelerate, we cannot achieve sustainable growth without swiftly adapting to change. Accordingly, the Group is resolutely striving to revolutionize its businesses, with a particular focus on its automotive-related businesses, and alter the philosophies governing them. In line with this goal, we have aimed to become an organization that functions more efficiently and seamlessly by shifting from a framework aligned based on individual business divisions to one arranged according to function.

Response to COVID-19 Pandemic

We would like to take this opportunity to express our deepest sympathies for all who have been impacted by COVID-19 pandemic.

To fight the spread of the virus and to comply with the state of emergency declared by the Japanese government, we have implemented the following countermeasures aimed ensuring the safety of our employees, partners, and the regions in which we conduct business.

We have also continued business activities at Group companies in China and other nations overseas while thoroughly applying safety and health measures, including infection control and health checks. Furthermore, we began manufacturing protective masks internally, especially in China.

Group Initiatives (Group countermeasures)
- Optimized inventory levels through production adjustment
- Limited overtime work, suspended business, or conducted temporary layoffs at plants as necessary
- Promoted teleworking and online conferencing (minimized the number of employees required to commute to their workplaces)
- Adopted staggered working hours or flex-time scheduling for cases in which employees must report to work
- Suspended all business trips
- Requested that partners refrain from visiting Group companies whenever possible
- Implemented thorough health and safety measures (wearing masks, body temperature checks, abstaining from direct contact with external parties, etc.)
- Manufactured masks for company employees in plants in China

Financial Highlights

- **Mobile Audio Segment**
  - Net sales: ¥37,059 million (34.5%)
- **Other Segment**
  - Net sales: ¥6,454 million (6.0%)

Note: The figure above includes intersegment sales.
### Products

**Horn tweeter**

T500A MkIII

Further developed from the original T500A model launched in 1992, this maximum-grade horn super tweeter features a pure magnesium ring-shaped diaphragm; a horn and an equalizer that have been precisely cut and processed with brass; and a distortion-reducing internal alnico magnetic circuit.

Price (for reference): ¥125,000 (not including consumption tax; limited production)

**Network-compatible monitor speaker**

6301DT

The 6301 series of monitor speakers is famous for its status as a bestseller that is widely used to support the operations of broadcasting stations and as a top seller in the installation market for over 30 years. This new model (scheduled for release in August) is compatible with the Dante™ ethernet-based digital audio network, which is rapidly gaining popularity.

Note: Dante is a registered trademark of Audinate Pty. Ltd.

Price (for reference): ¥60,000 (not including consumption tax)
